

Elevate Safety

Reduce ligature risk
while supporting
intervention with
Safety Boards Material

ORIGINAL SAFETY BOARDS & NEXT GEN MATERIAL

Polycarbonate Antimicrobial
Current Availability for
100+ quantities of boards.

Choose VisiCare™ to support excellent
patient care consistently across facilities
and systems. **Order in volume for
special pricing.**

Hybrid Profile Benefits

Multilingual
Patient Communication

Secure
Installation

One-Piece
Construction

Designed for **BEHAVIORAL HEALTH CARE FACILITIES** in an unparalleled combination of safety, durability, and functionality.

- ▶ **Patient Safety**, limit ligature risk
- ▶ **Vetted & Proven** for high-risk areas
- ▶ **Tamper-proof Caulking**, seals to wall

Every VisiCare™ Safety Board may be custom-built with suicide prevention messaging, multilingual care instructions, and calming visual content printed permanently into the board's surface. That makes it a non-pharmacological clinical tool — one that supports **better patient understanding**, **reduces medical errors**, and helps staff **deliver consistent care** even under pressure.
